

Portable Stirrer

BGD 729 Portable Stirrer is a convenient, safe, rechargeable brushless mixer. It use 4.0Ah rechargeable lithium battery as power supply, long powered run time and high efficiency, very suits for stirring on construction site. The electric shock protection of BGD 729 is “II” grade, cluster moter, insulation grade is “E” With reduction gear, BGD 729 has the characteristics of big torque, stable speed etc and can be used widely for mixing water-base paint, ink and glue etc.

Main Technical Parameters:

- ★ Battery Voltage: 18V
- ★ Battery Capacity: 4.0Ah
- ★ Speed: 0~1200r/min
- ★ Moter Max. Torque: 45N · m
- ★ Diameter of Stirring blade: 120mm
- ★ Net Weight: 3.5kg
- ★ **Ordering Information:** BGD 729----Portable Stirrer

Product feature:

- ★ Light and handy, easy to carry
- ★ Battery-powered, allow to be used in different places
- ★ Large torque ensure high dispersing efficiency; can be used to disperse large tank of sample
- ★ The dispersing shaft is easy to be dismounted and cleaned.
