

## Two-sided Applicator

The U shaped-Type Two-Sided Applicator is made using modern technology of metallurgy with a precision grinding machine. The accuracy of the gap depth is  $\pm 1.0\mu\text{m}$  ( $50\mu\text{m}$  and below) and or 2% of Full Scale. It is designed with ASTM D 823-25

It is made of high-grade, corrosion-resistant stainless steel 440C.

### Main Technical Parameters:

★ Wet Film Width of: 80mm

★ The total length: 100mm

### ★ Ordering information:

BGD 202/1: ( 25 $\mu\text{m}$ , 50 $\mu\text{m}$  )

BGD 202/2: ( 75 $\mu\text{m}$ , 100 $\mu\text{m}$  )

BGD 202/3: ( 150 $\mu\text{m}$ , 200 $\mu\text{m}$  )

BGD 202/4: ( 300 $\mu\text{m}$ , 400 $\mu\text{m}$  )
