

Drawdown Plate

Provides an economical and convenient means for making drawdowns of uniform film thickness.

It consists of a glass clip board set firmly on a phenolic plastic panel. The entire apparatus is mounted on rubber supports in order to eliminate sliding while in use. The drawdown surface is 6.4mm thick polished glass, equal in planarity to fine mirror glass. A steel clip holds the chart firmly while the drawdown is made. The workable area is equal to the size of the glass plate.

- ◆ Easy to use and easy to clean
- ◆ Holds charts securely for drawdowns
- ◆ Helps to achieve uniform results
