Precise Oven

BGD Series Precise Ovens with forced convection focused on addressing the requirements involved in drying or heating samples. With high quality and reliability, high cost performance, outstanding temperature accuracy, Biuged brand ovens has become the first option for many laboratories.

Features:

- ◆ Microprocessor PID temperature controller with temperature control protection, digits display and timing function ensures a precise and reliable temperature control. (intelligent programmable LCD temperature controller is an option)
- ◆ Hot-air circulating system consists of a fan keeping running under a high temperature and proper air ducts to ensure a uniform distribution a high temperature in chamber
- ◆ Independent alarm system for temperature-limiting ensures experiments run safely and no accident would happen. (Option)
- ◆ Recorder and printer are options which can print or record set parameters and trace variation curves of temperature. (Option)
- ◆ Can equip explosion-proof or vacuum (Option)

Main Technical Parameters:

- ★ Working Room Material: High quality stainless steel by argon-arc-welding technology
- ★ Temperature Stability: $\pm 1^{\circ}\text{C}$
- ★ Temperature Control: 0.1°C
- ★ Timing Range: 1 ~ 9999min
